Objectives and Outline

BO1: Meaningful Use and the HIE

GOAL:

To present an understanding of HIE expectations within the meaningful use guidelines and to show how Centricity EMR is supporting these new requirements within our products.

Objective 1:

Understand meaningful use requirements as they relate to HIE

Objective 2:

Have reviewed real-world examples of current HIE use to share clinical information

Objective 3:

Receive an update on the national and state-level HIE landscape

Meaningful Use – EMR Capabilities

BO2: Meaningful Use Part 2:

Using Centricity EMR to facilitate Meaningful Use

Don Sepulveda, Senior Marketing Manager, GE Healthcare

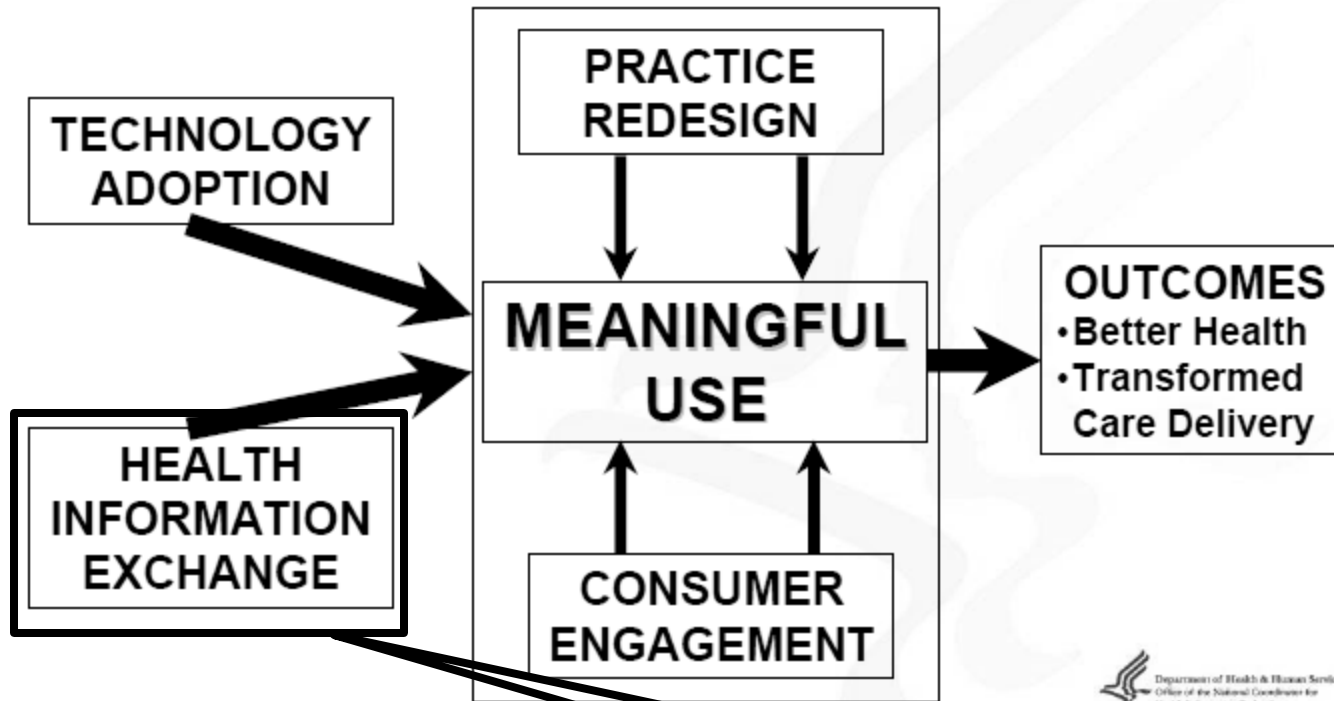

Second of a 2-part series on Meaningful Use. Part two delves into specific product features and ways in which the Centricity EMR suite is able to facilitate your practice's goal of meeting the meaningful use criteria.

BMC Results

Meaningful Use - Care Coordination

...Perform medication reconciliation for at least 80% of relevant encounters and transitions of care.

Collaborative Charting

- “Many EMR Systems, One Chart”
 - Key clinical data
 - Problems, Medications, Allergies
 - Immunizations, Advance Directives
 - Additional Chart Elements
 - Structured data, open standards
 - Data conversion to open standards (RxNorm, SNOMED)
 - Clinically focused user interface
 - No additional workflow
 - No required direct visibility into the HIE
