

only 9 weeks left ... do you have a plan for becoming 2015 CEHRT compliant?

As your partner in achieving better healthcare outcomes, we're committed to supporting your preparation for the 2019 CMS (Medicare and Medicaid) quality payment programs.

Now that it's the middle of summer, **all customers participating in a quality reporting program should have a plan in place for enabling 2015 Certified Electronic Health Record Technology (CEHRT)**. For those reporting on the Promoting Interoperability performance category, you need to be ready before starting your 90-day performance period.

For reference, below is the complete 2015 CEHRT solution set:

- ✓ Centricity™ EMR 9.12 or Centricity Practice Solution 12.3
- ✓ Centricity Integration with Azure, our Azure Active Directory (AAD) solution
- ✓ CCDA 2.1
- ✓ Patient Portal and Secure Messaging
- ✓ Centricity Patient API
- ✓ ePrescribing 4.2.2 or higher
- ✓ Other: Syndromic, Immunization, and CCDA interfaces

If you're in the process of enabling these solutions and need help or have questions, we encourage you to attend our 2015 CEHRT Office Hours webinar tomorrow, July 25 at 2:30 p.m. ET. This will be an interactive event where we'll spend less time on content and more time addressing any questions you may have. Please note that enabling 2015 CEHRT is largely a technical endeavor, as such please consider inviting IT staff to join as well.

Register for tomorrow's 2015 CEHRT Office Hours webinar [here](#).

If you're still ramping up or becoming familiar with 2015 CEHRT, we highly recommend that you visit our [Customer Portal](#), select the Community tab and your product, followed by the Upgrade Resources button. From there select our new 2015 Edition CEHRT link at the top or our Technical Planning or Education pages. Updates to the documents were made in June and future updates are likely, so please revisit the portal often for the most current information as you complete your 2015 CEHRT onboarding.

We're committed to making sure you have what you need for 2015 CEHRT preparedness. Please take a few minutes to complete this [survey](#) to better enable us to understand your status and provide you with the resources you need.

If you need assistance or have questions, please contact Support Services by calling 1-888-436-8491 option 2, followed by option 1 for technical questions and option 3 for clinical and quality reporting questions.
